Top Tips!

- Practise little and often. Why not practise on the way to school or in the queue at the supermarket?
- Use practical resources – you'll be surprised at how well facts stick if you've learnt them with action figures or food on your dinner plate!
- Could you make a poster to show what you have learnt and then teach someone else your facts?
- Make sure that learning your targets is fun and go back to them often to make sure that they have stuck.
